

The **Industry Standard** in Inkjet Proofing Media/Dye

Now image stability and fast dry time
go hand in hand.

If you proof with a dye based inkjet proofer such as an HP 5500, Matchprint 5542/60 or Canon 7250, you know there are trade-offs between image stability and dry time. With Matchprint ProofPro Inkjet Media/Dye, Kodak Polychrome Graphics (KPG) is helping to close this window, offering you media that is both lightfast through the proofing cycle and dries quickly for easy handling.

Matchprint ProofPro Inkjet Media/Dye won't wrinkle and cockle even with the high inkloads some proofs demand. And, the media is backprinted with the Matchprint watermark for quick identification and quality assurance. Pair Matchprint ProofPro Inkjet Media/Dye with Matchprint ProofPro RIP for proofs that have a luxurious and expensive feel and accurate color at a great price.

- ▶ **Fast drying time for optimum productivity with dye inks**
- ▶ **Provides smooth proofs without cockling and wrinkling**
- ▶ **Accurate color realized instantly, right off the printer**
- ▶ **Premium feel of expensive looking proofs**
- ▶ **Available in three tints – SuperWhite, Commercial, Publication**
- ▶ **Features Matchprint watermark for authenticity**
- ▶ **Moisture and scratch resistant for more durable proofs**
- ▶ **Use with Matchprint Color RIP or Matchprint ProofPro RIP for best results**

Take Advantage of the Productivity Inkjet Offers.
